Commissioner.

JANUARY-JUNE, 1912

THE CAPITAL CITY OTTAWA CANADA

Presents a combination of greater advantages and economic facilities for the location of industries than any other place in Canada—

FOR THESE REASONS :

Cheapest Power ;
Raw Materials Convenient ;
Splendid Industrial Sites, reasonable concessions ;
Advantageous Freight Rates ;
Rail and Water Transportation ;
Comparative Low Cost of Living ;
Most Favorable Labor Conditions ;
Population of 4,127,000 within 300 Miles ;
Direct and Quickest Haul to Western Markets.

OTTAWA, CANADA.—North-east View From Victoria Museum.

Ottawa, Canada

The City of Ottawa—Capital of the Dominion of Canada—nestles snugly in a veritable forest of heavily foliated soft maple and other trees, on high cliffs, overlooking the Ottawa river, and commands a magnificent view of varied scenery, combining mountain, river and vale, indescribable for beauty and grandeur. The Laurentian chain to the north; to the east, west and south, the Ottawa and Rideau Rivers and Rideau Canal, to the northeast the Rideau river emptying into the Ottawa river over most beautiful twin falls.

The City of Ottawa is particularly noted for its magnificent architecture. The Parliamentary and other government and public buildings, and a large number of private homes, constructed of splendid native stone and brick, are elaborate and striking in design, as well as in the appointment of beautiful grounds.

OTTAWA is abundantly provided with playgrounds, beautiful parks, picturesque driveways, shady avenues and splendid boulevards. There are 237 acres in playgrounds and park lands in the city limits, and about 2,000 acres natural park lands immediately adjacent to the city.

OTTAWA, CANADA.—Principal Street Scenes.

OTTAWA is the best lighted city on the Continent of North America.
OTTAWA is a city of magnificent homes and mammoth industries.
OTTAWA holds annually the greatest ICE horse race meet in the world.
OTTAWA provides POWER and LABOR on more favorable terms than any city in Canada.

OTTAWA, CANADA.—The Heart of the World's Most Beautiful Capital.. (See last paragraph next page).

Ottawa, Canada

SPECIAL OPPORTUNITIES FOR THE MANUFACTURER AND CAPITALIST.

Ottawa offers many glowing opportunities at the present time for the establishment of industries of various kinds and particularly for the manufacture of the following:—

Automobiles, Boxes, Bags, Biscuits, Barrels, Bottles, Clothing, Cigars, Confections, Cereal Foods, Elevator and Mill Building Machinery and Materials, Furniture, Flour, Gloves, Oatmeal, Paper, Paperwares (and kindred products), Pottery, Roller Mill Products, Rubber and Felt Goods, Shirts and Collars, Shoes, Steel Castings, Tiles, Textiles, Woodenwares, and many other lines.

Special Reports will be furnished promptly on any line of industry upon request.

On preceding page (10) will be seen a view of the Parliament Buildings, Rideau Locks, Chateau Laurier, Post Office, Plaza Laurier, Grand Trunk Central Station, Rideau Canal, Grand Trunk Railway, Canadian Pacific Railway.

OTTAWA, CANADA.—An Idea of the Many Busy Industries.

OTTAWA, CANADA.—Other Industries Under Full Blast.

OTTAWA, CANADA.—Water Powers in the City Limits. The Reason for the CHEAPEST POWER in Canada.

Advantageous and Economic Facilities

Manufacturing and Distributing

OTTAWA offers a combination of greater advantages and economic facilities for the successful and profitable operation of industries of various kinds than any other city in Canada.

CHEAPEST POWER AND LIGHT IN CANADA.

LIGHT—4c. per 100 sq. feet, per month, of area lighted, and 3c. per k.w. for current consumed—including lamps and meter—less 10%, 15 days.

POWER—Hydro-Electric, over 100 h.p. down to 1 to 5 h.p., \$9.90 per h.p. to \$22.50 per h.p. per annum, net, including meter and transformer, and delivered to consumer's motor.

POWER IN ABUNDANCE.

Ottawa consumes about 75,000 h.p., and has available over 25,000 h.p. when required—generated in the very heart of the city.

Within 50 miles, there is available, undeveloped, 1,000,000 hydraulic h.p., low water estimate.

Ottawa has more power available for commercial purposes than Niagara, and AT LESS COST.

OTTAWA, CANADA.—Transportation Facilities.

Transportation Facilities

Eleven Steam Roads enter the city ; two others, and one electric line under construction ; eight water lines.

Ottawa ranks second to no place in Canada, in transportation facilities.

RAILWAYS—Grand Trunk, Canadian Pacific, Canadian Northern, New York Central.

WATER LINES—Via Rideau Canal to the St. Lawrence and the Great Lakes, Ottawa and St. Lawrence Rivers to the Great Lakes, Montreal, and the Atlantic Seaboard.

FREIGHT RATES.

Freight rates from Ottawa to the great markets of Western Canada are identically the same per class, per cwt., as rates from Toronto, Hamilton, London, Woodstock, Welland, Windsor, Walkerville and other industrial centres of Ontario, and with the advantage of one-half to two days quicker service from Ottawa to western points, by reason of direct haul (see Ry. map of Canada) without transshipment, as is necessary on consignments of freight from points not on the main line of the only THREE transcontinental railway lines.

On eastbound and export traffic, Ottawa, of course, has the advantage, in both rates and time, over all other Ontario and Western Canadian cities, by reason of location and more direct lines and transportation facilities between this point, the Atlantic ocean and the United States.

OTTAWA, CANADA.—The Public Market. Pure Food at Comparatively Low Cost. Consumers Purchase Direct From Producers.

RAW MATERIALS.

Woodworking, paper-making, and for kindred industries, raw materials are available in the city and within easy access.

Timber and other materials abound throughout the district: Ash, Beech, Basswood, Birch, Barite, Corundum, Clay (brick, tile and pottery), Cedar, Elm, Granite, Graphite, Iron, Hemlock, Limestone, Marble, Marl, Mica, Maple, Magnesite, Peat, Pine (red and white), Poplar, Phosphate, Water (good, soft, cold).

SPLENDID INDUSTRIAL SITES.

Splendid industrial sites, with trackage, are available—suitable, convenient, and comparatively cheap.

Some sites in city limits, with fixed assessment for 20 years, with a variety of labor in the locality, await occupancy, at a nominal cost.

LABOR.

It is indisputable that more favorable labor conditions obtain in Ottawa than at any other industrial center in Canada. Nearly every class of labor is available, especially efficient female help. The situation in Ottawa is particularly free from strife.

Home Life in Ottawa

Ottawa enjoys a delightfully vigorous, healthful climate—spring, summer, autumn and winter.

Notwithstanding the fact that some of the largest industries in the world are under full blast, and many additional important industries are pounding away in the city, Ottawa is a most cleanly, picturesque, charming and healthful home city.

The Capitalist and Manufacturer enjoy the advantages and benefits of the social centre of all Canada;

The Workingman finds conditions most congenial. There are no slums. Each laborer's little home, almost without exception, has a grassy plot in front, and sufficient ground for a garden in the rear.

Many houses, in good repair, are occupied at a monthly rental of from \$7.00 to \$15.00 per month, including water, while first class modern houses may be rented throughout the city at \$22.50 to \$35.00 per month.

Parks, Play-grounds, Summer Resorts, Pleasure Resorts, Theatres, Schools, Public Libraries, Public Swimming Pools,—in fact every requisite is to be found in Ottawa which goes in the making of joys of living for those who toil.

OTTAWA, CANADA.—A Few of the 72 Apartment Blocks.

Ottawa is abundantly provided with first class Apartments for those who prefer this mode of life. Additional first class kindred buildings are being erected annually.

In the Apartments shown above, suites of two rooms, to eight rooms, with bath, rent for \$25.00 to \$125.00 per month, including heat, water, and in most cases light and ice.

CHILDREN ARE PERMITTED, and in Ottawa Apartments the little tots enjoy the same freedom, rights, privileges, comforts and pleasures as the ordinary disciple of race suicide.

OTTAWA, CANADA.—A Glimpse of the Principal
Educational Institutions

Conservatory of Music, Normal and Model
Schools, Boys' College, Collegiate Institute,
University, Water Street Convent, Ladies'
College.

Ottawa is noted for its excellent educational
facilities. In addition to the above there are three
first class business colleges and sixty-nine other
public and private colleges and schools (including
53 free schools), with a daily average total
attendance of 16,700 pupils.

CONVENTION CITY AND TOURISTS' CENTRE.

Ottawa has long since acquired the titles of Convention City and Tourists' Center. A larger number of conventions are held each year in Ottawa than in any other place in Canada. Many buildings are available for meeting, all the principal railways of Canada center here, and the numerous first class hotels provide excellent service at reasonable cost.

OTTAWA, CANADA.—A Section of the Most Beautiful Driveway in the World.

Tourists continue to visit Ottawa in rapidly increasing numbers yearly. Each year these visitors find a new charm—something more and more delightful about the world's most beautiful capital.

THE PUBLICITY AND INDUSTRIAL BUREAU

will at all times render, gratuitously, every possible service in arranging hotel accommodation, convention halls, and such details as will insure successful conventions and happy sojourns for delegates and visitors.

OTTAWA, CANADA

PARLIAMENT BUILDINGS

OTTAWA has 19 Federal Government Buildings valued at \$22,675,000, giving employment to 5,000 people, and distributes about \$5,000,000 annually through payrolls—an ASSET which no other city in Canada enjoys—a permanent asset that is in no wise jeopardized by whatever unfavorable conditions may arise and prevail in other cities or districts in Canada.

OTTAWA, CANADA.—The Driveway Along Rideau Canal.

OTTAWA, CANADA.—The Ottawa Improvement Commission is Spending \$1,000,000.00 in the Creation and Beautification of Parks, Driveways and Boulevards.

After the usual mantle of "the beautiful"—clear, crisp days of brilliant sunshine and deep blue skies, clinking skates, jingling bells, ruddy cheeks, laughing eyes, happy voices—all emphasize the glorious purity of the atmosphere. Riding, driving, sliding, ski-ing, skating, racing—these are but a few of the many glorious outdoor sports of our invigorating winter seasons.

“ Out Britannia Way ”

Ottawa enjoys the most efficient street car service of any city on the continent. The cars are clean, comfortable and swift. The employees are neat, courteous and obliging. The traffic has grown from 10,500,000 passengers during 1905 to 26,385,000 in 1911. Ottawa is the only place in Canada where street car passengers may ride 14 miles for $3\frac{1}{2}$ cents.

Ottawa holds annually the best Industrial and Agricultural Exhibition, Automobile and Motor, Fat Stock, Poultry, and Horse Shows in Canada.

OTTAWA, CANADA.—Annual Central Canada Exhibition.

OTTAWA, CANADA

INDUSTRIOUS. PROSPEROUS.

Ottawa's three principal payrolls—Industrial, Governmental and Railways combined, distribute annually nearly \$15,000,000.00.

Ottawa has the largest individual factories in the world producing Paper, Cardboard, Tents and Awnings, Marine Signals, and Cement.

Ottawa has now 180 busy industries of various kinds, giving employment to about 17,000 persons—male and female—and paying out, for services rendered, annually, approximately \$8,000,000.00. Total products 1911 estimated at \$38,000,000.

Ottawa is still the largest individual manufacturer of lumber in the world—the district output of 1911 aggregating 459,000,000 feet, board measure, with a monetary valuation of about \$13,772,000.00.

INDUSTRIAL OTTAWA

Following is a list of the more important industries in operation, address and products:—

Name and Address.	Products
American Bank Note Co. 200 Wellington St.	Bank notes, bonds, stamps, etc.
Blackburn Bros. Dufferin Road.	Mica.
Brading Brewing Co. 451 Wellington St.	Ale, porter, beer.
British American Bank Note Co., 262 Wellington St.....	Bank notes, bonds, etc.
Butterworth Foundry Co..... Broad St.	Furnaces, stoves, ranges, heaters.
Breadner Mfg. Co. 1002 Somerset St.	Jewellery.
